

Aspiring Full-Stack Developer, AI Practitioner, and Blockchain Enthusiast pursuing a B.Tech in Electronics and Computer Engineering at Amrita Vishwa Vidyapeetham. Skilled in developing scalable, user-centric web applications using Next.js, React.js, TypeScript, and modern frontend frameworks with expertise in Figma for UI/UX design and rapid prototyping. Passionate about integrating decentralized technologies (Solidity, Viem, Foundry) and AI/ML solutions (TensorFlow, PyTorch) to develop impactful, intelligent systems. Eager to contribute to innovative, cross-disciplinary projects that solve real-world challenges at the intersection of Web2, Web3, AI, and Blockchain.

EDUCATION

B.Tech Electronics and Computer Engineering , Amrita Viswa Vidyapeetham, Bengaluru
CGPA - 7.18
Sept 2023 - Present

SKILLS

- Frontend Development:** NextJS, Vite, Astro, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- Blockchain & Web3:** Solidity, viem, Foundry, Hardhat
- UX Design:** Wireframe, Prototyping, Mockups
- Backend & Databases:** Node.js, PostgreSQL, Prisma
- Design Tools:** Figma, Adobe Photoshop
- Tools:** Git, GitHub, Vercel, npm/yarn
- AI/ML:** Python, Anaconda, Jupyter, TensorFlow, PyTorch
- Other Languages:** C/C++, Python, Java (Intermediate), Go (Beginner), Rust (Beginner)

INTERNSHIP

- GRC Analyst Intern | Cybersecurity-NXXT | Jun 2025 - Jun 2025**
- Learnt about Governance, Risk and Compliance and ISO27001
 - Made my own Risk Assessment Sheet and did a sample Risk Assessment based on ISO27001

PROJECTS

- Folio 2k26 - My Personal Site | 2026**
- Designed and developed a fast, responsive portfolio with product-level polish clear navigation, consistent UI sections, and performance-first architecture
 - Deployed on Vercel with optimized build pipelines for seamless delivery
- BiOsDEV Site - Secure Development • Innovation • Excellence | Jun 2025 - Aug 2025**
- Built a public-facing team website emphasizing credibility and maintainability with structured sections and predictable content updates
 - Achieved fast static delivery using Next.js SSG, ensuring high performance and SEO readiness
- Freshness detector and quantity counter | Aug 2024 - Oct 2024**
- Built an AI model for Flipkart GRID 6.0 that detects real-time freshness of fruits and vegetables and estimates shelf-life of produce
 - Outputs structured tabular data with item name, quantity, and total item count including non-edible products in real time

CERTIFICATIONS

- Workshop On Cyber Security And Hacking | Nov 2023 |
- Python (Basic) Certificate | Jun 2023 | Certificate ID 927101ACD6AD | [View Certificate](#)
- Certification: Blockchain Basics | May 2025 | Certificate ID IIVHXTF3DF6I4 | [View Certificate](#)

EXTRA-CURRICULAR

- Lead Organiser | BiOs Cybersecurity Meetup | Jul 2025 - Present**
- Organising biOs Meetups
- Development Team Lead | Team bi0sblr | Jul 2025 - Present**
- Leading BiOs-dev the Infra team
- Junior Web Developer | Team bi0sblr | Jan 2025 - Jul 2025**
- Helping the community to make / maintain websites and posters
- Mentor | GirlScript Summer of Code | Jul 2025 - Oct 2025**
- Mentoring fellow contributors to write and develop safe and bug free code
